- a. Approximately 10-15% of LHSC's total spend on goods and services can be considered non-compliant to the Procurement Directives.

- i. **Rationale:** Some supplier engagements >\$100,000 in annual spend have not been procured in compliance to the new legislative requirements and have been strategically single sourced with the support of senior management to maintain operational effectiveness.

- ii. **Action Plan:** HMMS will continue to execute a Sourcing Strategy on behalf of LHSC maximizing the available resources required for each competitive bidding engagement. This strategy includes tendering legacy contracts set to expire, capital and service requirements and new opportunities that arise based on organizational strategic priorities. HMMS will also continue to oversee the process of strategic single sourcing decisions to ensure all stakeholders are aligned with the decision in accordance with the organization's Signing Authority Policy.
