Save the date!

The London Laboratory Services Group (LLSG) is proud to offer this exciting opportunity for all laboratory staff and healthcare quality gurus:

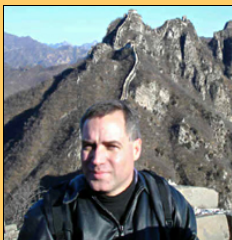

“Love it or Lean it”

How to use Lean and project management to make sustainable process improvements.

At this symposium, you will:

- ◆ actively participate in a healthcare virtual simulation and learn how to apply Lean and Six Sigma tools to laboratory and other healthcare problems
- ◆ hear from LLSG laboratory staff and leaders about how they applied Lean concepts to their specific areas and their lessons learned
- ◆ learn about using project management tools to successfully plan and implement Lean projects

KEYNOTE SPEAKER: Don Woods, Senior Client Manager of Breakthrough Management Group International (BMGI) will lead the simulation

activity. Don is a Six Sigma master black belt and Lean master. He is an ASQ-certified quality manager and software quality engineer, and a certified project management professional. Don has an MBA and a bachelor's degree in international management from Regis University in Denver.

BMGI specializes in Lean & Six Sigma consultancy around the world for various industries including manufacturing, aerospace, pharmaceutical, technology and healthcare. Some of their Canadian clients include Covenant Health and Calgary Laboratory Services in Alberta and Mount Carmel Health System and Aultman Health in Ohio, USA.
