

About LHSC

London Health Sciences Centre (LHSC) is one of Canada's largest research-intensive acute care teaching hospitals. Located in London, Ontario, LHSC is a multi-site system of care that encompasses University Hospital, Victoria Hospital, Children's Hospital, the Westmount Kidney Care Centre, Byron and Victoria Family Medical Centres, and the 54 Riverview Avenue site. In addition, LHSC is the home of Lawson Health Research Institute, Children's Health Research Institute, CSTAR (Canadian Surgical Technologies & Advanced Robotics), Fowler Kennedy Sport Medicine Clinic, as well as Children's Health Foundation and London Health Sciences Foundation.

LHSC is a leading academic health organization committed to collaborating with patients, families and system partners to deliver excellent care experiences and outcomes, educate the health-care providers of tomorrow, and advance new discoveries and innovations that optimize the health and wellbeing of those we serve.

Our highlights

Exemplary Standing

Accreditation recognizes how well a hospital meets standardized levels of patient care and safety. In the past year, LHSC received three accreditation achievements, including Accreditation with Exemplary Standing from Accreditation Canada (the highest level of performance); Stroke Distinction for the Clinical Neurological Sciences department; and accreditation for CSTAR.

100 years of Children's Hospital

Since 1922, Children's Hospital has been at the heart of the London community, providing exemplary care to hundreds of thousands of patients, receiving global recognition for medical firsts, and championing medical advancements through education and research.

Ambulatory surgical centre

LHSC's Nazem Kadri Surgical Centre expands surgical capacity through select routine outpatient surgical procedures for healthy, low-risk patients. It is the first high-efficiency ambulatory surgical centre of its kind in Ontario and has garnered interest globally with other hospitals interested in implementing similar models of care.
