Orderable - SBBLD
Turnaround Time: 10 days

Specimen:
Glass BD Green Sodium Heparin tube

Collection Information:
Do not use plastic blood collection tubes, since these contain high levels of Antimony. [Trace Elements Collection Requirements]

Reference Ranges:

<table>
<thead>
<tr>
<th>SI Units (Reported on Patient Chart):</th>
<th>Conventional Units:</th>
</tr>
</thead>
<tbody>
<tr>
<td>0-0.74 nmol/L</td>
<td>0-0.090 µg/L</td>
</tr>
</tbody>
</table>

Reference Ranges are based on Non-Occupationally exposed population.

Interpretive Comments:
Samples collected in plastic tubes yield elevated antimony results due to leaching from the tube walls. High antimony results should be followed up with a repeat request for antimony making sure that the sample is collected in a glass tube.
