

Do you live in London?

Effective June 20th 2022, we are moving towards a new process to have bloodwork done the day before your treatment.

- This will mean less waiting time on the day of your drug therapy appointment (chemotherapy or immunotherapy).
- Your healthcare team will review your bloodwork results and prepare your medication in advance.
- Ask your healthcare team for more information.

Did you know?

You can buy a **parking pass** to reduce your parking costs. You do not need to use the pass on consecutive days and it stays active for 1 year
