

### **Breast Cancer Automated Triage:**

- Patient is within appropriate catchment area (if patient is from Chatham, Kitchener/Waterloo, Cambridge, Windsor, Owen Sound and Sarnia referring physician should be directed to closest cancer center) with exceptions for patients referred for clinical trials or requiring specialized care.
- If requirements met patients should be booked into next available medical oncology consultation slot without medical oncologist triage required.
- If outstanding items missing note sent back to referring physician to complete.
- If uncertain review referral request with triaging oncologist.

If all criteria present then book in next available consult slot, otherwise return to referring physician to complete indicated investigations/documentation.

### **Neoadjuvant Breast Cancer:**

- Tissue confirmation of malignancy including pathology report.
  - ER, PR and HER2 test results.
- Breast surgical clip placement (if patient is a candidate for breast conserving surgery).
- Imaging.
  - Staging CT Chest/Abdomen/Pelvis and bone scan completed within past 3 months.
  - Echo or MUGA scan.
- Review requests for neoadjuvant with triaging oncologist.

### **Adjuvant Breast Cancer (Postoperative):**

- Tissue confirmation of malignancy including surgical pathology report.
  - ER, PR and HER2 test results.
- Stage III Breast Cancers only.
  - CT Chest/Abdomen/Pelvis within past 3 months.
  - Bone scan completed within past 3 months.
  - Echo or MUGA scan.
- HER2 positive patients.
  - Echo or MUGA scan.
- Review patients potentially eligible for multigene profiling with triaging oncologist.

### **Metastatic Breast Cancer:**

- Tissue confirmation of malignancy including pathology report.
  - ER, PR and HER2 test results.
- Imaging.
  - Staging CT Chest/Abdomen/Pelvis and bone scan completed within past 3 months.
- HER2 positive patients.
  - Echo or MUGA scan.
