

Multi-Year Accessibility Plan Status Update

Submitted by LHSC's Accessibility Working Group

December 2018

Summary

At London Health Sciences Centre (LHSC) we are committed to improving access to our facilities and services for patients, their families, employees, physicians, students, volunteers and visitors.

Guided by our Organizational values of Compassion, Teamwork, Curiosity and Accountability, our Patient Declaration of Values of Respect, Quality and Compassion in addition to the principles of the Accessibility for Ontarians with Disabilities Act (AODA) we continue to work towards eliminating barriers at LHSC. This specifically aligns with LHSC's primary strategic value that "Patients are at the centre of everything we do".

Since 2003, London Health Sciences Centre has prepared annual accessibility plans that address physical, informational, communicational, attitudinal, technological and policy barriers as required under the [Ontarians with Disabilities Act 2001](#), (ODA). Effective December 1st, 2015, the ODA requirement to develop annual accessibility plans was repealed as it is now addressed under the AODA multi-year plans.

The AODA (June, 2005) requires hospitals to implement specific policies, procedures and plans which will contribute to making hospitals fully accessible by 2025. As of January 1st, 2013, a multi-year accessibility work plan has been prepared that addresses the [Integrated Accessibility Standards Regulations](#) (IASR) under the AODA. Documents related to the regulation are available upon request.

LHSC's plan will:

- Outline the applicable Integrated Accessibility Standards Regulations and LHSC's plan to meet the regulations for the upcoming years
- Outline the status of LHSC's compliance with applicable Integrated Accessibility Standard Regulations

Integrated Accessibility Standards Regulations Work plan-Status Update

AODA Requirement	Deliverable	Activities	Compliance Date	Annual Status Update as of Oct, 2018
