

# HELP US KEEP LHSC SAFE

## PLAN AHEAD!

Please **prepare to arrive 30-45 minutes before your appointment** in order to be screened at the front door. Plan for the weather as there may be a line outside of the entrance doors – if it is hot, bring water and a hat or umbrella; if it is raining, bring an umbrella or jacket

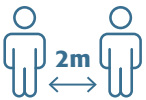

Answer screening questions **honestly**. In some cases, it is not an automatic fail to enter the hospital. Instead, screening staff will speak with you about the best ways to keep you and others safe

**Review the new Visitor Restrictions; ALL visitors MUST pre-approved** before coming to see or accompany a patient. The link below will guide you:

[www.lhsc.on.ca/coronavirus/visiting-the-hospital](http://www.lhsc.on.ca/coronavirus/visiting-the-hospital)

## PLEASE REMEMBER TO...

**Physically distance yourself at least 6ft (2m) between others** and follow instructions on posted signs (E.g. 3-person limit on all elevators). You will be expected to **stay with the patient** while you are inside LHSC. Please **only go to the area you are visiting**; DO NOT walk around the hospital or stay in public spaces

**Wear a clean, undamaged mask that fits close to your face.** If you do not have one, we will provide one. Ensure your mask covers your nose and mouth at all times. **Cloth/ reusable masks** are permitted as long as they are freshly washed. Before removing your mask, **clean your hands** and carefully remove it **without touching your face**

**Use hand sanitizer** provided at every entrance

**PLEASE DO NOT COME TO THE HOSPITAL IF YOU ARE EXPERIENCING ANY COVID-19 SYMPTOMS. FOR AN UPDATED LIST OF ALL SYMPTOMS, PLEASE GO TO:**
