

**4 – Way Stopcock
for CRRT Rescue
Line: Position
During Treatment**

**Turn “Off” to
rescue line**

Access limb

Access Tubing

**Prongs point to open pathways. Since this
is a “blind” pathway, the stopcock in this
position behaves as a 3-way**

**4 – Way Stopcock
for CRRT Rescue
Line: Position For
Flushing**

**Open to Rescue
Limb and Access
Tubing**

“OFF” to Access limb

Access Tubing

**Prongs point to open pathways. Since this is a “blind”
pathway, the stopcock in this position behaves as a 3-way**
